

DH50 Hongshuo's Idea Board!

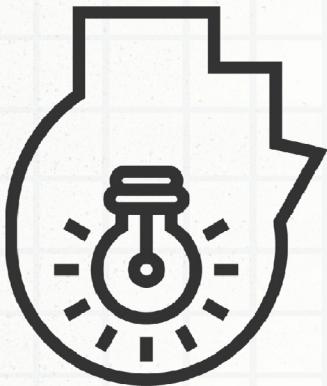

1 A Mobile App !

aims to improve the *convenience of school services*.

Will include **a food reservation system** where students can order food beforehand to *avoid the long queues*

and a function that **updates the availability of the printing shop**

to eliminates the need for physical checking and *reduces students' time wastage*.

2 JAE tea session!

be held *once per semester*

JAE students can

suggest improvements

in school services with councillors

from *SW department*

It helps SC create a *more comfortable environment* for **JAEs** based on their feedback

With DH50, your life will be better
